Colleen Boswell - Contact Person

Date Summary Prepared: March 1999

Device Name:

- Trade Name - Solo Ortho
- Common Name - Orthodontic Bonding Primer
- Classification Name - Bracket Adhesive Resin and Tooth Conditioner, per 21 CFR § 872.3750

Devices for Which Substantial Equivalence is Claimed:

- Ormco Corporation, *Solo Plus Ortho*

Device Description:

The device is an all purpose dental adhesive consisting of a visible light curable methacrylate resin based mixture of monomers capable of forming both chemical and mechanical adhesive bonds to both natural tooth structure, e.g., enamel and dentin, to commonly used restorative materials, e.g., composite resins, porcelain and metals. Due to the chemistry of this product, this device is also suitable as a universal primer for labial and lingual bonding of ceramic or metal brackets.

Intended Use of the Device:

The intended use of Solo Ortho is as an enhancing primer for labial and lingual orthodontic bonding.

Substantial Equivalence:

Solo Ortho is substantially equivalent to other legally marketed devices in the United States. The orthodontic bonding primer marketed by Ormco Corporation functions in a manner similar to and is intended for the same use as the product manufactured by Kerr Dental Materials Center.

Dear Ms. Boswell:

We have reviewed your Section 510(k) notification of intent to market the device referenced above and we have determined the device is substantially equivalent (for the indications for use stated in the enclosure) to devices marketed in interstate commerce prior to May 28, 1976, the enactment date of the Medical Device Amendments, or to devices that have been reclassified in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (Act). You may, therefore, market the device, subject to the general controls provisions of the Act. The general controls provisions of the Act include requirements for annual registration, listing of devices, good manufacturing practice, labeling, and prohibitions against misbranding and adulteration.

If your device is classified (see above) into either class II (Special Controls) or class III (Premarket Approval), it may be subject to such additional controls. Existing major regulations affecting your device can be found in the Code of Federal Regulations, Title 21, Parts 800 to 895. A substantially equivalent determination assumes compliance with the Good Manufacturing Practice for Medical Devices: General (GMP) regulation (21 CFR Part 820) and that, through periodic GMP inspections, the Food and Drug Administration (FDA) will verify such assumptions. Failure to comply with the GMP regulation may result in regulatory action. In addition, FDA may publish further announcements concerning your device in the Federal Register. Please note: this response to your premarket notification submission does not affect any obligation you might have under sections 531 through 542 of the Act for devices under the Electronic Product Radiation Control provisions, or other Federal laws or regulations.

This letter will allow you to begin marketing your device as described in your 510(k) premarket notification. The FDA finding of substantial equivalence of your device to a legally marketed predicate device results in a classification for your device and thus, permits your device to proceed to the market.

If you desire specific advice for your device on our labeling regulation (21 CFR Part 801 and additionally 809.10 for in vitro diagnostic devices), please contact the Office of Compliance at (301) 594-4692. Additionally, for questions on the promotion and advertising of your device, please contact the Office of Compliance at (301) 594-4639. Also, please note the regulation entitled, "Misbranding by reference to premarket notification" (21 CFR 807.97). Other general information on your responsibilities under the Act may be obtained from the Division of Small Manufacturers Assistance at its toll-free number (800) 638-2041 or (301) 443-6597 or at its internet address "<http://www.fda.gov/cdrh/dsmamain.html>".
